

- **ZI PLATFORM**  
Manufactured completely using stainless steel and watertight load cells due to its laser welding. CE approval.
- **Z PLATFORM**  
Coated platform and CE approval

- ⇒ Platform with extra-thin profile that eases the handling of pallets and forklift trucks. The load cells are mounted on autocentered pivoting feet.
- ⇒ “ZI” model: The finishings using stainless steel AISI 304 guarantee an effective protection against corrosion in critical environments.
- ⇒ Dismountable platform that eases the access to load cells and the junction box.
- ⇒ Designed to work with one or two ramps.
- ⇒ Junction box using guarantess IP68 protection for “ZI” Model and IP67 for “Z” Model.
- ⇒ Static overload limit in the load cell.
- ⇒ 4 CS load cells – “Z” model- (IP67) or CSI (Stainless steel including laser welding) -”ZI” model- (IP68).

### DIMENSIONS & CAPACITIES

Model	(AxB) (mm)	( C )* (mm)	Capacity (kg)	Divisions (gr.)	(D) (mm)	( E ) (mm)
Z/ZI	1000x1000	60	150, 300, 600	50, 100, 200	1200	120
Z/ZI	1250x850	60	150, 300, 600	50, 100, 200	1050	120
Z/ZI	1500x1250	65	600, 1500	200, 500	1450	120
Z/ZI	1500x1500	65	600, 1500	200, 500	1500	120

### OPTIONS

- Z model: CSI load cells in stainless steel (IP68).
- Z/ZI models: Other dimensions or capacities.
