# PENKO Engineering B.V.

Your Partner for Fully Engineered Factory Solutions

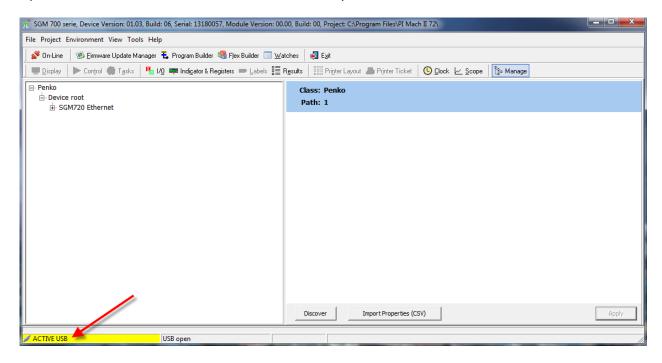

How to...

Update the SGM7xx or SGM8xx firmware

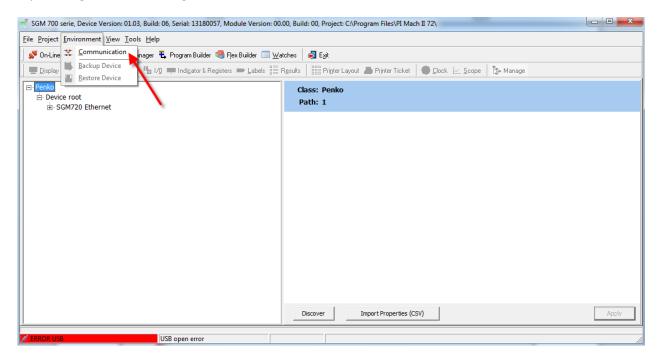

Connect the SGM7xx or SGM8xx to a PC using the USB connection.

Open Pi Mach II. In the bottom left corner it should say "Active USB"

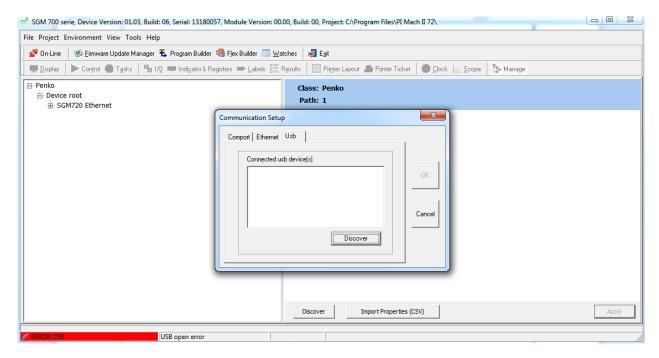

If it says "Error USB" make sure that the USB driver is installed. The drivers can be downloaded at our website <a href="https://www.penko.com">www.penko.com</a>.

If you still get "Error USB" go to **Environment** and click on **Communication**.

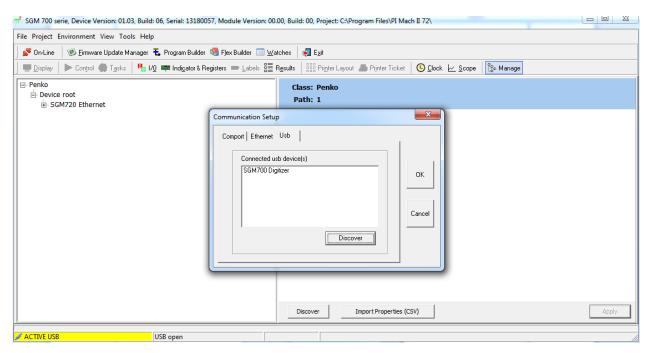

A popup screen will appear, click on the tab "USB" and click on "Discover".

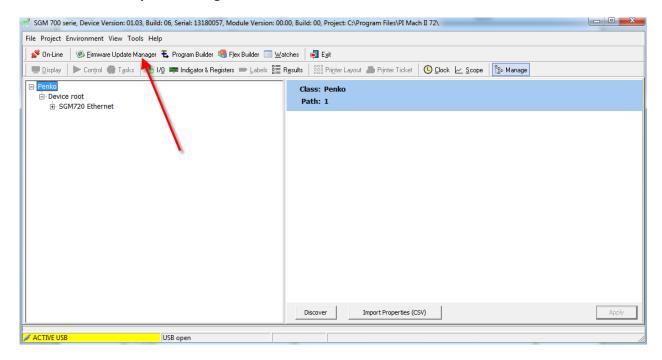

The SGM7xx or SGM8xx should appear and click on "OK".

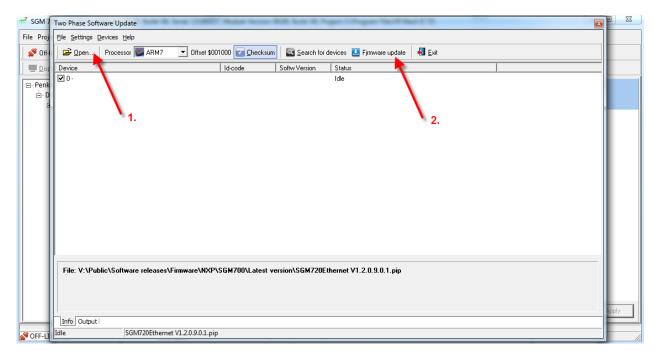

## Click on Firmware Update Manager

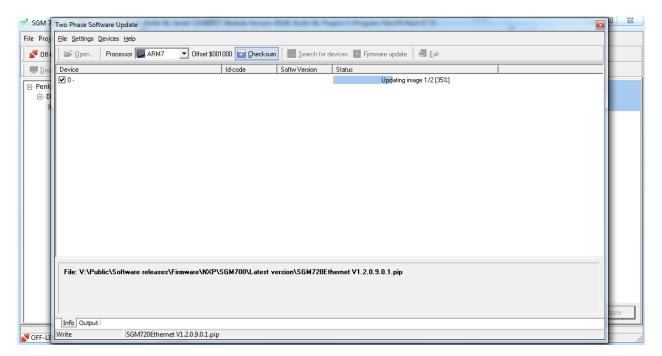

# Click on Open en select the file you want to use. Now click on Firmware Update

The Update should start, after this the update is complete and the SGM7xx or SGM8xx will reboot.

The SGM7xx and SGM8xx is now updated and ready for use.

#### **About PENKO**

Our design expertise include systems for manufacturing plants, bulk weighing, check weighing, force measuring and process control. For over 35 years, PENKO Engineering B.V. has been at the forefront of development and production of high-accuracy, high-speed weighing systems and our solutions continue to help cut costs, increase ROI and drive profits for some of the largest global brands, such as Cargill, Sara Lee, Heinz, Kraft Foods and Unilever to name but a few.

Whether you are looking for a simple stand-alone weighing system or a high-speed weighing and dosing controller for a complex automated production line, PENKO has a comprehensive range of standard solutions you can rely on.

### Certifications

PENKO sets high standards for its products and product performance which are tested, certified and approved by independent expert and government organizations to ensure they meet – and even – exceed metrology industry guidelines. A library of testing certificates is available for reference on:

http://penko.com/nl/publications\_certificates.html

#### **PENKO Professional Services**

PENKO is committed to ensuring every system is installed, tested, programmed, commissioned and operational to client specifications. Our engineers, at our weighing center in Ede, Netherlands, as well as our distributors around the world, strive to solve most weighing-system issues within the same day. On a monthly basis PENKO offers free training classes to anyone interested in exploring modern, high-speed weighing instruments and solutions. A schedule of training sessions is found on: www.penko.com/training
